You Just Try NR For That Indigestion

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

One Day's Test Proves NR Best

The stomach only partly digests the food we cat. The process is finished in the intestines where the food is mixed with bile from the liver.

It must be plain to any sensible perin who realises this, that the
stomach, liver and bowels must work
in harmony if digestive troubles
tre to be avoided or overcome.
This fact also explains why

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend a few cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glist-ns with beauty and is radiant with fe: has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doublen the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or tollet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you over made.

We sincerely believe, regardless of everything alse advertised, that if you desire soft, lustrous, heautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you ment to accept the flames.

At least another day, officials say, will be necessary before an accurate estimate of dead, injured and property loss can be given.

SHEATHE YOUR WRATH

SHEATHE YOUR WRATH

The Poor Telephone Girl Has the "Flu."

Sheathe your wrath! Though central's piping query. "Number?" may not respond to your frantic efforts to dislocate the hip joint of the receiver hook for fully fifteen minutes, the poor creature has the "flu." Today's report from the telephone office is that service is demoralized—yes, moreso, for there are sixty-cipht or seventy girls swathed in Vick's and onlon poulices at home. The normal working force is 175. This leaves just a handful over a hundred to keep the busy twitchboards of Chattanooga plueged, night and day, and with the enidemic has come more numerous calls, still more congested on account of the early closing hours, though relief from the peak load gives fewer stress hours during the day. The fact that people are more or less afraid to mingle in the downtown crowds, and leave their homes or places of business as infrequently as possible, has also added to the business and social transactions over the phone.

Approximately 23 per cent. of the telephone company's office force is also off on slok leave, yet they still manage to send out their full quots of monthly bills. The same ratio is reported flustricken of the linemen and general service department personnel. Manager Gray Gentry has himself just resumed activity after a brief snell of grip or influenza, but still smilling marched into the telephone office Tuesday morning, and in response to an avalanche of complains merely replies, "Sheathe your wrath, the poor girls have the flu." 29 TOWNS DESTROYED.

Toll of Forest Fires in Minnesota and Wisconsin Piaced at 1,250 Persons. Duluth, Minn., Oct. 15.—Based on reports from the twenty-nine towns, either nartially or entirely wiped out by the five separate fires which raged in Minnesota and Wisconsin, the estimated death toll is today placed at 1,250 persons.

Besides the bodies which have been brought to Duluth, Moose Lake. Altkin and other cities and towns, others are continually being found in the pits and cellars to which frantic refugees turned in vain for shelter from the onrushing destruction. Whole families have been found to have perished, either burned to death or suffocated by gas in these improvised shelters.

The territory over which the fire has swept is lifeless waste, crops, stock, houses and barns having all been destroyed by the flames.

At least another day, officials say, will be necessary before an accurate estimate of dead, injured and property loss can be given.

The French are driving the Germans in the direction of the Serre and Barre valleys and are meeting with only temporary resistance.

PRINCE MAX WRITES ONE **WAY AND TALKS ANOTHER**

INTERPARTY COMMITTEE DISCUSSES RECENT NOTE.

Purported Explanation of His Address Known as "Sermon on the Mount."

mon on the Mount."

London, Monday, Oct. 14.—Dispatches from Holland report there is a probability of another turnover in the German chancellorship. The Berlin National Zeitung prints a report of a meeting held on Saturday by an interparty committee, at which discussion turned to the letter Prince Maximilian wrote to Prince Alexander of Hohenlohe, revealing a markedly different attitude in political affairs from that proposed in his recent address before the reichstag.

The committee, according to the newspaper, recognized the situation produced by the publication of the letter rendered Prince Maximilian's retrention in office doubtful. The fact that rumors are current in certain circles in Berlin that Prince Maximilian's retirement is inevitable also is reported in the National Zeitung.

Rotterdam reports to the Telegraph say that Prince Maximilian's resignation is probable and that his probable successor will be Dr. W. S. Solf, the new foreign minister, or Philipp Scheideman, secretary of state without portfolio. The correspondent attributes this development to the "imminent abdication of the kaiser," which, he says, the kaiser wished to announce two months ago, but was dissuaded by the empress and others. The dispatch reiterates the story that Emperor William is suffering from a mental depression, which is causing his friends anxiety.

The letter written by Prince Maximilian to Prince Alexander of Hohen-lohe referred to above was dated Jan. 12 and purported to be an explanation of an address made by Prince Maximilian in the chamber of deputies at Baden. This address was known as Prince Maximilian's "sermon on the mount." The text of the letter showed that Prince Maximilian was reactionary in his political attitude and thet be ary in his political attitude and that he was at that time a firm supporter of the German royal family.
